

The Prophetic Life

'The Prophetic Life' is a three-day small group course (max 20) that is one step I have taken toward developing the next generation of leaders and prophets in living a supernatural and prophetic life.

There is a desperate need for all leaders to live a 'Prophetic Life'. Together, we will look at what this means, not just in theory, but in the daily realities of life.

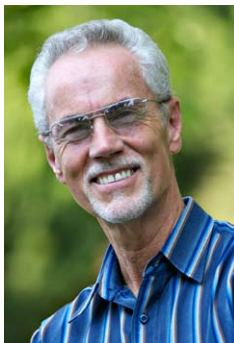

We will also look at the role of the Prophet in today's contemporary Church. Every one of the major ministries needs to understand this in order to work with, encourage, and maximise the effectiveness of the Prophet.

One of the key objectives I have personally is to discover and develop emerging or existing prophets around the world, and 'The Prophetic Life' course, although not by any means exclusive to this objective, will help in its fulfilment.

Finally, we will also bring instruction concerning the Gift of Prophecy and, in particular, its function within the local Church.

'The Prophetic Life' course is open to:

- a) Prophets – existing and emerging (with a letter from their Senior Minister)
- b) Senior Ministers of local churches
- c) Leaders with a strong gift of prophecy (with a letter from their Senior Minister)
